

MORTICE LOCK

MLW5000

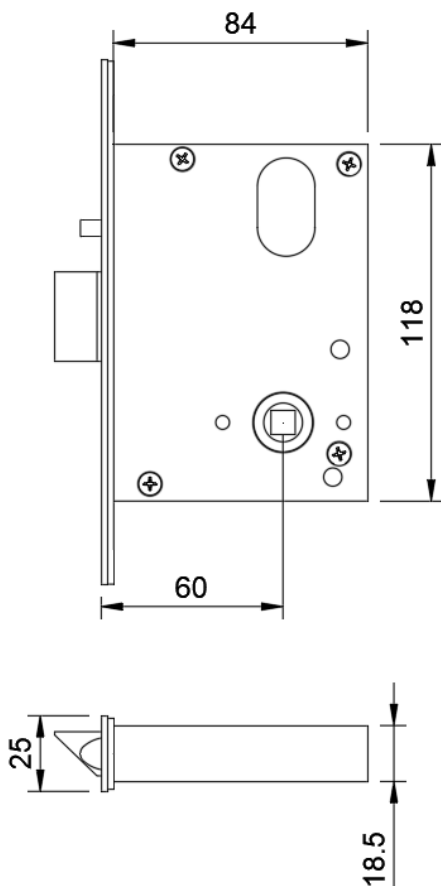

Features

The Vivid Architectural MLW5000 series Mortice Locks are designed specifically for Commercial, industrial, and institutional applications which require a high level of security and durability.

The Vivid Architectural MLW5000 is suited to any building where durability and security are a priority offering a full range of functions required for any project specification requirements.

The Vivid Architectural MLW5000 has a high purity die cast zinc alloy case to provide rigidity and precision and has been successfully tested for endurance within fire door assemblies for up to 2 hours in accordance with Australian Standards AS1530.4 – 2014 and AS1905 – Part 1 Fire Resistant Door sets
